

QUALITY AND SAFETY POLICY

Maltexco is a leader in the production of malted barley, malt extract and other cereal based products such as flours, pearl barley and special malts, fulfilling the needs of the food and beer industry through excellence in quality and safety of its products.

Our Integrated Quality Management System, which complies with all legal requirements as well as those agreed with our clients, keeps us aligned with our client's expectations.

To improve the quality of our products and processes we are continuously evaluating new opportunities, investing in Research and Development and improving our own operations. At the same time our Quality and Safety Management System is on permanent improvement, as a result of an efficient contact and teamwork with our personnel, clients and suppliers.

Supplying the required resources and having efficient internal and external communications channels we can promptly react against any change that could affect the safety and quality of our products.

Our staff receives permanent training to correctly fulfill their duties and responsibilities.

This policy is known and applied at all the levels of the organization and it is available to all stakeholders.

Álvaro Cruzat O.
